## FOR IMMEDIATE RELEASE

## Spring into the Season with Upper District's Plant Voucher Program

**MONROVIA, CA** – Upper San Gabriel Valley Municipal Water District (Upper District) launches the region's first ever Residential Plant Voucher Program to residents within its service area. Keeping with the District's core value of providing innovative solutions to water conservation, the goal of the program is to incentivize residents to transform their landscapes with drought-tolerant plants and develop water-efficient gardening practices.

As Upper District enters its 60<sup>th</sup> year of incorporation, the district continues to lead the region in providing creative and unique programs that encourage the public to make conservation a way of life. The Plant Voucher Program will provide up to \$250 dollars worth of water efficient plants to qualifying residents. Garden View Nursery, centrally located within Upper District's area of service in the City of Irwindale, was selected for its wide selection of native plants and trees.

"We are excited to offer this first-of-its-kind program that we hope will motivate our residents to incorporate more water-efficient practices when gardening. Outdoor water use accounts for nearly 9 billion gallons of water use every day across the United States. Going drought tolerant doesn't mean the landscape can't look vibrant while also saving water," said President Ed Chavez, Upper District Board of Directors.

To participate, residents will be able to apply online starting Friday, March 1<sup>st</sup>. When applying, residents will be asked to provide a water bill to verify residency within the service area. Upper District serves all or parts of the following cities: Arcadia, Azusa, Baldwin Park, City of Industry, Covina, El Monte, Glendora, Duarte, Irwindale, La Puente, Monrovia, Rosemead, San Gabriel South El Monte, South Pasadena, Temple City and West Covina.

Once verified, participants will receive a voucher number which they will present at Garden View Nursery for plant pick-up. A list of plants has been pre-approved for this program and are available on the plant voucher program website access and download. For additional information, www.ecotechservices.net/usgvmwd-plant-voucher. If you have any questions regarding participation guidelines, application process, voucher status, any other general Program questions or please plantvoucher@ecotechservices.net.

-more-

Upper District's mission is to consistently meet our regions' need for reliable, high quality and affordable water; including water conservation, recycled water, storm water capture, storage, water transfers and imported water. Upper District services nearly one million people in its 144 square mile service territory. Governed by a five-member elected board of directors, Upper District is a member agency of the Metropolitan Water District of Southern California. Annually, more than 78 billion gallons of water is used in Upper District's service area. For more information about Upper District, please visit our website www.upperdistrict.org or call 626-443-2297.
